ABOUT CLM ELECTRONICS ENGINEERING SERVICES

CLM supports semiconductor and manufacturing operations with accountable engineering services, responsive technical support, and a commitment to dependable long-term customer relationships.

Who CLM Is

Built around hands-on technical expertise.

Founded in 2023, CLM Electronics Engineering Services focuses on the practical needs of semiconductor and manufacturing equipment users. Our work brings together technical assessment, repair, maintenance, rebuild, process support, parts, and training.

Repair & Maintenance

Technical Assessment

Parts & Training

OUR POSITION

"Our position is simple: solve responsibly, support consistently, and earn long-term trust."

SEMICONDUCTOR & MANUFACTURING EQUIPMENT SPECIALISTS

Mission & Vision

OUR MISSION

“

To establish a total customer satisfaction through quality product support and services by providing a best and effective quality solution and accountable after sales/service support.”

OUR VISION

“

We envision to be the one of the best supplier in term of sales and Technical support services known for its quality and in time services.”

Technical Service Portfolio

Minor & Major Repair

Technical Support

Preventive &
Predictive
Maintenance

Process Support &
Qualification

Machine Baselining &
A1 Conditioning

Rebuild & Overhaul

Parts Replacement &
Calibration

Technical Training

Preventive Maintenance

13

WEEKS / QUARTERLY

Quarterly maintenance and condition checks

26

WEEKS / SEMIANNUAL

Semiannual comprehensive maintenance

52

WEEKS / ANNUAL

Annual deep inspection and major servicing

Maintenance schedules are customizable per equipment and customer requirements.

Equipment Expertise

ASM Wire Bonders

KNS Wire Bonders

ASM Automatic Die Bonders

ESEC Die Bonders

Dicing / SAW / Back Grinding

Aluminum Wedge Bonding

Detailed equipment models are covered through technical assessment and service consultation.

Sub-Assembly Rebuild & Overhaul

Bond Head Assembly

High-precision bonding unit alignment & overhaul

01

X/Y Table Assembly

Motion axis calibration, lead screw & guide rebuild

02

Workholder Assembly

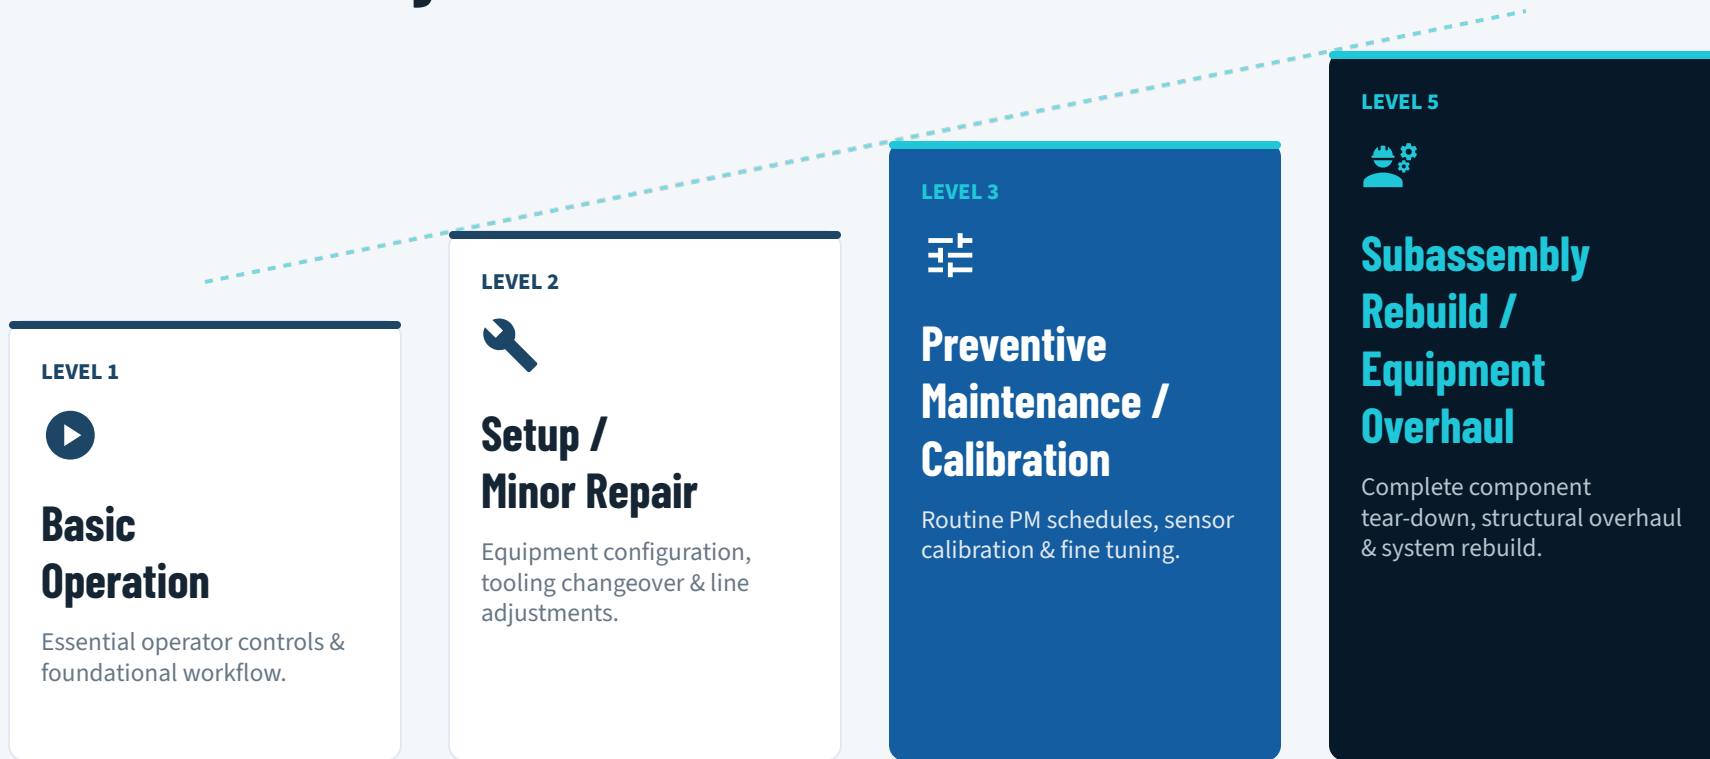

Clamping mechanism, thermal plate & sensor refurbishment

03

Precision rebuild work combines technical expertise, controlled assembly practices, functional checks, and quality-focused verification.

Technical Training

Spare Parts & Components

BOARDS

Main boards • PR boards • CPU boards • Logic boards • Driver boards • I/O boards

MOTION

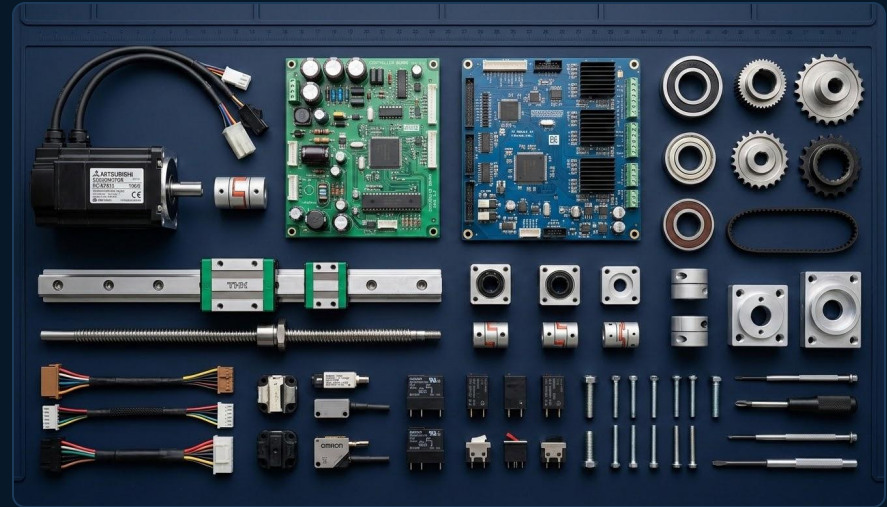

Servo drivers • Motors • Bond head parts • XY table parts

VISION

Sensors • Vision components & optics

CONTROL

Power supplies • Control modules & system interfaces

SPARE PARTS • INSTALLATION • REPLACEMENT • CALIBRATION SUPPORT

Board Repair Services

Precision diagnosis. Accountable repair.

CONTROL & PROCESSING BOARDS

Main Boards • CPU Boards • Logic Boards • HiPEC Boards

POWER & MOTION DRIVERS

Power Supplies • Driver Boards • Servo Driver Boards • Bond Head Driver Boards

SIGNAL & INTERFACE MODULES

Motor Interface Boards • Motor I/O Boards • I/O Boards • PRS Boards

COMPATIBILITY AND AVAILABILITY DEPEND ON EQUIPMENT AND PROCESS REQUIREMENTS

After-Sales & Service Support

TECHNICAL ASSISTANCE

Responsive expert help and remote diagnostic support for quick issue resolution.

TECHNICAL TRAINING

Comprehensive engineer and operator training programs to maximize internal capability.

ONGOING EQUIPMENT SUPPORT

Sustained machine performance monitoring, upgrades, and operational optimization.

CONTINUOUS SERVICE RELATIONSHIP

A dedicated, end-to-end partnership delivering complete lifecycle care and reliable technical excellence.

WARRANTY / SERVICE SUPPORT

Assured quality assurance and structured warranty coverage.

SPARE PARTS INSTALLATION

Original component supply, precise fitment, and verified system calibration.

MAINTENANCE SUPPORT

Proactive health checks and scheduled preventive maintenance routines.

REPAIR SUPPORT

Precision component-level diagnosis, board repair, and rapid turnaround.

Broader Equipment Support

FLEXIBLE BY CAPABILITY

“CLM also provides services for other brands based on available technical capabilities, resources, equipment requirements, and customer needs.”

TECHNICAL CAPABILITIES

Assessed against engineering scope & toolsets.

AVAILABLE RESOURCES

Allocated expertise and support capacity.

EQUIPMENT REQUIREMENTS

Tailored machine & process alignment.

CUSTOMER NEEDS

Customized engagement & SLAs.

EVERY ENGAGEMENT BEGINS WITH A PRACTICAL REVIEW OF FIT, SCOPE, AND SUPPORTABILITY

Why Work With CLM

01

QUALITY SERVICE

Delivering rigorous engineering standards and uncompromised precision in every engagement.

02

RELIABLE TECHNICAL SUPPORT

Responsive expert assistance and swift troubleshooting to minimize system downtime.

03

INDUSTRY-FOCUSED EXPERTISE

Deep domain knowledge tailored for semiconductor and electronics manufacturing environments.

04

AFTER-SALES SUPPORT

Comprehensive maintenance, spare parts, and warranty coverage post-installation.

05

EQUIPMENT LIFECYCLE SUPPORT

End-to-end machinery optimization, upgrades, and scheduled preventive care.

06

LONG-TERM CUSTOMER RELATIONSHIPS

Building trusted, ongoing partnerships dedicated to continuous technical success.

CLM Service Lifecycle

A connected technical support path—from first assessment through sustained equipment support.

Let's Build a Reliable Technical Partnership
